Created in 1984, Varador2000 is a real european shipyard

Located between Barcelona and the Costa Brava, Varador 2000 is a mid-sized shipyard with a multilingual team, that offers high quality services, competitive prices, and provides ship owners and crews with personalized attention and fast solutions for yachting needs. You could even take to the ski slopes while the mechanics do their work, or go sailing if you prefer...

Furthermore, we provide an integrated technical base, where you can service your yacht at your own convenience, and there is a modern infrastructure which can handle any kind of repair or refurbishment.

Varador 2000 has quality certificates ISO 9001, ISO 14001 as well as the OHSAS 18001 quality management, environmental and workplace prevention certificate (management of health and safety at work).

The Varador 2000 shipyard is the ideal place to attend to vessels ranging from 15 up to 60 metres.

The most important feature is our technical team comprising 80 specialized professionals who will resolve all your super yacht needs in our workshops, including:

- Mechanics and engineering
- Yacht finishing
- Quality painting work
- Electricity and electronics
- Hydraulics
- Rigging and deck hardware
- Welding and plumbing
- Nautical carpentry and woodwork
- Composite works
- Interior and exterior upholstery

Plus:

- Quick work
- Dead work
- Composite constructions and structural modifications
- **Mataró Marina Barcelona** berths from 20 to 60 metres
- **Crew Club** and recreational area
- **Tender Clinic+** special area for storage and maintenance
- **Teak Clinic+**
- **Osmofast Vacuum** Osmosis Treatment
